
POST-OP FILLINGS INSTRUCTIONS

Some sensitivity is normal following a filling procedure. This can include discomfort with chewing or hot/cold foods. This should not be throbbing pain or unbearable pain and typically subsides within a few weeks.

If the filling feels high, or your bite feels different after the numbness wears off please contact the office so we can adjust if necessary.

If you have any questions or concerns, please don't hesitate to call our office: (918)266-6470
